## C) ECONOMIC INFORMATION

<b>Tax regime</b>	<p>The Fund is subject to a tax of 0.05% per annum, except 0.01% per annum in relation to Class I, IDI, and SP Units, levied of the Net Asset Value at the last day of each calendar quarter, in accordance with the 2002 Law of the Grand Duchy of Luxembourg.</p> <p>The Council of European Union adopted on June 3, 2003 Directive 2003/48/EC (the Savings Directive) on taxation of savings income in the form of interest payments which provides for the taxation of interest payments made in one Member State of the European Union ("EU Member State") to individuals who are resident of another EU Member State. Such Directive has come into force on July 1, 2005.</p> <p>The taxation of such interest payments will be achieved through the exchange of information between the European Union Member States. However during a transitional period Luxembourg will be authorised to apply a withholding tax instead of exchanging information. The Luxembourg withholding tax will be of 15% from July 1, 2005 until June 30, 2008, of 20% from July 1, 2008 until June 30, 2011 and of 35% as from July 1, 2011. Therefore a withholding tax could apply when a Luxembourg paying agent makes distributions (a reinvested dividend is considered as distribution payment) and redemption of Units (including redemption in kind) for the benefit of a Unitholder who is an individual residing in another EU Member State.</p> <p>Unitholders may upon request be brought within the exchange of information as provided by the Savings Directive which would result in information regarding the distribution or redemption being provided to the tax authority in the country where they are resident.</p> <p>Under present Luxembourg law, there are no other Luxembourg taxes payable by the Fund or by Unitholders in respect of their Units in the Fund, except by Unitholders who are domiciled in, or are residents of or have a permanent establishment in the Grand Duchy of Luxembourg and except by certain former Luxembourg residents.</p> <p>Prospective Unitholders should consult their own tax advisers as to the taxes applicable at the acquisition, holding or disposition of the Fund's Units under the laws of the countries of their respective citizenship, residence or domicile.</p> <p>Prospective Unitholders who are fiscally resident in countries outside Luxembourg are referred to the relevant addendum to this Prospectus. Such addenda's are prepared for countries, where the Fund has obtained marketing approval and where these countries' laws require such addenda's.</p>
<b>Subscription and Redemption Fees</b>	<p>see Appendices for information on the subscription and redemption fees of a given Sub-Fund.</p>
<b>Other Fees and Expenses</b>	<p>Fees and expenses relating to the Fund are described in section "16. Charges and Expenses" of the full Prospectus. Details with regard to the fees to be borne by each Sub-Fund are contained in the respective Appendix of the Sub-Fund.</p> <p>Investors should be aware of the fact that an investment in a Sub-Fund of the Fund may be subject to fees and expenses on the Sub-Fund level as well as on the level of the target funds in which such Sub-Fund invests.</p>

## DANSKE INVEST

Mutual Investment fund organised under the laws of the Grand Duchy of Luxembourg

### Appendix to the simplified prospectus relating to the Sub-Fund

#### Greater China

#### A) INVESTMENT INFORMATION

<b>Investment objective</b>	<p>This Sub-Fund will invest in transferable securities, mainly equities and equity-related securities issued by companies located in or with main activities within the Peoples Republic of China, the Republic of China (Taiwan) or Hong Kong. The equities and equity-related securities must be quoted on various Official Stock Exchanges or other publicly recognised and regulated market.</p> <p><b>The Sub-Fund may invest in securities of developing countries, with new or developing capital markets. These countries may have relatively unstable governments, economies based on only a few industries and securities markets that trade a limited number of securities. Securities of issuers located in these countries tend to have volatile prices and offer the potential for substantial losses as well as gains. Undertakings for collective investment, which invest their assets in these countries, are subject to the same risks. In addition, these securities may be less liquid than investments in more established markets as a result of inadequate trading volume or restrictions on trading imposed by the governments of such countries. In addition, developing markets may have increased risks associated with clearance and settlement. Delays in settlement could result in periods of uninvested assets, missed investment opportunities or losses to the Sub-Fund.</b></p> <p>For the purpose of hedging and/or efficient portfolio management, the Sub-Fund may use financial derivative instruments as mentioned in Section 4. (B) of the full Prospectus as well as the pooling and co-management described in Section 3.1 of the full Prospectus.</p> <p>The Sub-Fund may invest up to 10% of its net assets in shares / units of other investment funds which comply with the rules set out in Section 4 of the full Prospectus.</p>												
<b>Performance data</b>	<p>The yield figures are shown as percentage p.a.</p> <p>Class A for the period 24 November 2003 to 31 December 2007:</p>  <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>Year</th> <th>Yield (p.a.)</th> </tr> </thead> <tbody> <tr> <td>03</td> <td>7.2</td> </tr> <tr> <td>04</td> <td>8.77</td> </tr> <tr> <td>05</td> <td>17.36</td> </tr> <tr> <td>06</td> <td>46.28</td> </tr> <tr> <td>07</td> <td>43.31</td> </tr> </tbody> </table>	Year	Yield (p.a.)	03	7.2	04	8.77	05	17.36	06	46.28	07	43.31
Year	Yield (p.a.)												
03	7.2												
04	8.77												
05	17.36												
06	46.28												
07	43.31												
<b>Risk profile</b>	<p>The value of the portfolio of the Sub-Fund is calculated on the basis of the market value of the individual equities held by the Sub-Fund, which are issued by companies domiciled in rapidly growing, but not yet fully developed national markets. The market value is influenced by the capital market players' expectations concerning the economic development of the issuing companies, which are also affected by political risks of the countries of issue and these countries' currency exchange rates. Due to the market concentration ratio, the possibilities of diversification in the Sub-Fund's portfolio can be reduced.</p> <p>The market capitalisation may be low, high volatility can appear.</p>												

	<p>The Distributor of the Sub-Fund has made the following risk classification of the Sub-Fund:</p>  <p>Risk classification:  Step 1: Bond Funds with low risk – with a minimum investment horizon of 1 year.  Step 2: Bond Funds with medium risk – with a minimum investment horizon of 2 years.  Step 3: Bond Funds with high risk – with a minimum investment horizon of 4 years.  Step 4: Equity Funds with low risk – with a minimum investment horizon of 6 years.  Step 5: Equity Funds with medium risk – with a minimum investment horizon of 8 years.  Step 6: Equity Funds with high risk – with a minimum investment horizon of 10 years.</p>
<b>Profile of a Typical Investor</b>	<p>The Sub-Fund is suitable for any investor type including those who are not interested in or informed about capital market topics, but who see investment funds as a convenient way of participating in capital market developments. It is also suitable for more experienced investors wishing to attain defined investment objectives. The investor must have experience with volatile products. The investor must be able to accept significant temporary losses, thus the Sub-Fund is suitable for investors who can afford to set aside the capital for at least 10 years.</p> <p>The Sub-Fund is designed for the investment objective of building up capital. For a widely diversified investor's portfolio, it may be suitable as an investment intermixture.</p> <p>Class A is denominated in USD and is intended for retail investors.</p>
